

 AME Statutory Supervisors Training. Lead the Way in WHS Excellence.

Our strategic alliance with Australian Training Management. RTO #2431.

Asset Management Engineers has a strategic partnering arrangement with Australian Training Management (ATM), a Registered Training Organisation (RTO Registration Number: 2431). This collaboration with ATM providing assessment services and AME facilitating the training ensures that our Statutory Supervisors training meets all regulatory standards. Upon successful completion of the Statutory Supervisor training units, participants will receive a statement of attainment issued by ATM. We are committed to maintaining the highest level of training excellence and compliance.

The strategic alliance with ATM provides approval for AME to market the statutory supervisor training.

- Module 3: Implementing and Monitoring WHS Training for the Work Team:
- Module 4: Implementing and Monitoring Hazard Identification, Risk Assessment, and Control:
- Module 5: Implementing and Monitoring WHS Recordkeeping Procedures.

Practical Component

The following is to be assessed during the course, there is a requirement to conduct the below in the workplace after the completion of the two-day course:

- The facilitation of risk assessment training for others in the work group.
- Clear expectations and instruction provided to those in the work group.

- Clear and thorough identification of hazards while using hazard identification tools and procedures.
- The implementation of appropriate controls to reduce the risk caused by the identified hazards.
- The collaboration with others in the identification and controls put in place.
- Communicating to the work group the outcomes of the HRA/JSA, work procedures to be followed and any other requirements for the management of risk.
- The completion of a lessons learnt debrief, covering things done well and recommendations for improvement.
- The maintaining and auditing of all documentation.
- The ability to located relevant workplace documentation and procedures.

Recognised Prior Learning (RPL)

Recognition of Prior Learning (RPL) is an assessment process that acknowledges the skills and knowledge you've gained through previous experience, training, or other informal learning, and credits them towards formally accredited qualifications.

For our Statutory Supervisors Training, RPL focuses on the units of competence and determines if you already possess the necessary skills in these areas.

RPL offers an alternative pathway to earn your qualification without attending all training modules.

To be awarded either unit through RPL, you'll need to demonstrate your competency in key areas, such as:

BSBWHS411:

- Understanding and applying WHS legislation and regulations relevant to your work
- Developing and implementing WHS policies, procedures, and programs
- Identifying and analysing workplace hazards
- Implementing and monitoring risk controls
- Maintaining WHS records and documentation

RIIRIS402E:

- Planning and preparing for implementing the risk management process.
- Identifying and analysing workplace hazards
- Assessing risks and identifying unacceptable risk levels
- Identifying potential actions and developing risk controls
- Implementing and evaluating risk controls
- Auditing the risk management process and completing records

To assess your competency, we'll consider various types of evidence, including:

- Work portfolios and documented experiences
- Training records and certificates
- References and testimonials
- Interviews and simulations

Course Cost

\$950.00 per person.
