2024 Course Update

Registered Plant Awareness Training

By Peter Bursey

Training Course Updates

The new WA WHS Act 2020 and WHS (General and Mining) Regulations 2022 came into effect on 31 March 2022 and replaced the previously applicable Mines Safety & Inspection Act 1994 and the associated Mines Safety & Inspections Regulations 1995.

If you are a person with management and control of plant, it is imperative to understand your registration and inspection requirements. The aim of our industry-leading training course is to give you a fundamental understanding of registered plant and associated registration and inspection obligations to remain compliant.

Course Modules:

- WA WHS legislation, implementation, and structure.
- Transitional savings provisions and exemptions.
- Part 3.1 and Part 10.2 Managing the risks to health and safety at a mine.
- Chapter 5 Duties and Registration of plant.
- Schedule 5 Types of plant requiring registration.
- Types of inspections and inspection compliance.
- Online plant management systems. (MSMS)
- Schedule 26 Statutory function and requirements.
- Data plate interpretation to Australian Standards, ASME and PED.
- Additional duties for plant and regulatory trends.
- Perform practical inspections of registered plant.
- Itinerant plant inspections.

Course Information.

- Courses are conducted in Perth, Kalgoorlie, Bunbury, Port Hedland or onsite.
- Two days (8am to 4pm)
- Morning tea and lunch provided. (except onsite)
- Digital facilitation with the provision of a laptop and USB.
- You can bring your own laptop if you wish.
- \$1470 per person.

What to Do Next?
